Foster Care Case Management at Taylor Family Care Center

Foster Care Case Management offers a broad range of services and supports to help children and families.

Case Management Services

- Provide services to children and families in the foster care system
- Serve children ages birth to 21 years
- Link families to community resources to assist in reunifying the family
- Connect children to medical, mental health and educational services
- Ensure safety and stability for children
- Strive to connect children to lifelong, permanent homes

Medical Case Management Services

- Review children's medical records including immunizations, mental health and dental history
- Create plans of care to ensure ongoing health needs (physical, behavioral and developmental) are met
- Collaborate with Primary Care Providers to ensure the child receives referrals to appropriate community services
- Coordinate community referrals and resources to ensure all team members have current information about the child's health

Saint Louis Partners

Through a contract with the Missouri Department of Social Services, Children's Division, Our Little Haven partners with three other social service agencies to make up the consortium known as Saint Louis Partners. This group has come together to promote the welfare of children and families through case management, foster care and adoption. Together, Saint Louis Partners has the power to help more children and families in the community.

Becoming a Foster or Adoptive Parent

Our Little Haven works together with the Saint Louis Partners to recruit, train, and license foster and adoptive homes for children in foster care. Foster and adoptive families are always needed for sibling groups, older children, children of minority heritage and children with special needs. Foster parenting is a challenge and an opportunity that is worth the effort. To learn more, please call the Foster Care Program Manager at (314) 531-3183, ext. 238.
