

# Our Little Haven Holiday Letter

Caring for Children and Families. Mind. Body. Soul.

Dear Friends & Family,

On his first day at Our Little Haven, 4-year old David was asked to draw his family. Picking out only greys and dull colors, David reluctantly did what Miss Sarah asked. The colors were a reflection of how little David saw his life: dark, cold and scary. Months later, after working with Miss Sarah and many of the compassionate professionals at Our Little Haven, David and his family received the care that allowed them to recover and provide a safe, happy and loving family home for David and his older sister, Sierra.

David now uses every color in the box. The sky is blue, the grass is green, and a smile is on the face of every family member. His drawings hang around his room at home, in the family kitchen, and of course, in Miss Sarah's office at Our Little Haven.

In this Season of Light, we are drawn to colorful traditions and light-filled observances. We ask if you also have room in your heart to help more children see the colors of our world more brightly, and more hopefully. The firm foundation Our Little Haven helps them build in their early years will help them become strong young adults, with the inner resources they need to succeed.

There are many children who need our help today. We invite you to contribute this year to help Our Little Haven care for these children. This care makes a lifetime of difference. On behalf of our children and families, we thank you!

**Yes, I will donate to help the children and families.** Fed Tax ID #43-1567500
